

Environmental / Quality Policy

Casella is one of the world's leading providers of integrated health, safety and environmental solutions and specialist providers of environmental technologies for a wide range of environmental health and safety issues.

The extensive range of instrumentation manufactured and supplied includes real-time dust and noise monitors, meteorological equipment and real-time environmental monitoring solutions.

We are dedicated to reducing occupational health and environmental impact risks through effective monitoring solutions and strive to provide innovative & informative technology solutions for the benefit of workers' health.

This policy will complement our overall plan of promoting sustainable business practices and our Integrated Management System will provide the framework for setting and reviewing our objectives and targets, thus we commit to:

- Integrating EMS / QMS into core business processes.
- Protection of the environment, including prevention of pollution and other specific commitments relevant to the context of the organisation.
- Fulfilling our compliance obligations related to our environmental aspects.
- We will provide appropriate training, instruction and supervision to all our employees, such that they are able to perform their duties in a way that enhances employee knowledge and does not compromise our policy and objectives.
- Maintaining, developing and continually improving the integrated Management System to meet the requirements of ISO 14001:2015 & ISO 9001:2015.
- Preventing or reduce risk of undesired effects.
- Making policy available to interested parties via our website and communicate to all persons working for or on behalf of the company.

This policy will be reviewed on a regular basis to ensure it is compatible with the context and strategic direction of the Company.

Signed:

A handwritten signature in blue ink, appearing to read "Phil Bradley". The signature is stylized with a large, sweeping initial "P" and "B".

Phil Bradley, General Manager – 24th April 2017
